

**Question/Comment #35**

Reference: H.27

There are several references in the solicitation that refer to Government Furnished Equipment – yet we are unable to find a list that clearly defines the equipment to be furnished by the government. Please provide a list of Government Furnished Equipment.

**Answer #35**

Government Furnished Equipment is identified in the WSI Master Property List (MPL). The MPL contains Unclassified Controlled Nuclear Information (UCNI) and cannot be released to the general public. Prospective offerors must request the MPL by following the instructions on the Requesting Sensitive Data section of the Request for Proposals web site at <http://www.emcbc.doe.gov/srs>.

**Question/Comment #36**

Reference: H.27

There are several references in the solicitation that refer to and/or imply Contractor Furnished Equipment – we are unable to find a list that clearly defines the equipment to be furnished by the prospective contractor(s). We understand that normally – Standard Equipment would include:

**Standard Equipment**

*PF members at the SPO I/II level are trained and equipped with the following:*

- *Glock, Model 22/23, .40 caliber, semiautomatic handgun (46 rounds)*
- *M-4 rifle (140 rounds ammunition)*
- *Hand-held radio (with duress capability)*
- *Flex cuffs*
- *Flashlight*
- *Uniforms*
- *Protective mask*
- *Oleo-Resin Capsicum spray (pepper spray)*
- *Protective suit and latex gloves, and that:*

**Special Equipment** *to be used in certain training instances may include:*

- *7.62mm machine gun*
- *American Security Products (ASP) Baton*
- *Glock, Model 22, .40 caliber, semiautomatic handgun*
- *Shotgun (Breaching Tool)*
- *Flex cuffs*
- *M-4 rifle*
- *Remington 700 BDL Precision rifle*
- *Diversionary Devices*
- *Body armor*
- *Night vision equipment*
- *Helicopter with forward looking infrared radar (FLIR)*
- *Exothermic torch*
- *Self-contained breathing apparatus (SCBA)*
- *Personnel Protective Equipment*
- *Chemical Detector*
- *SNM Detection Monitor*
- *Uniforms*
- *Hoods and gloves*
- *Flashlights*
- *Goggles*
- *Tactical boots*

- *Tactical Vests*
- *Concussion grenade*
- *Fragmentation grenade*
- *Thermal optics*
- *Armored vehicle*

Please provide a list of Contractor Furnished Equipment, and/or advise if our assumptions are correct.

**Answer #36**

All of the supplies, materials, and equipment currently required for contract performance are on the Master Property List. This list includes both Government Furnished Property and property that is purchased by the contractor and reimbursed by the Government. This list is continuously updated as new requirements emerge.

**Question/Comment #37**

Reference: J, Attachment E

The document indicates that the Contractor shall furnish "practice ammunition for all standard size weapons. Is the ammunition to be "lead" or "green – (100% frangible ammunition)?

**Answer #37**

All ammunition required for weapons qualification firings will be lead ball ammunition. Paint house training requires frangible ammunition. For other non-qualification weapons training, the offeror will have the flexibility to propose a mix of ammunition that provides the best value to DOE.

**Question/Comment #38**

References: C.3; J, Attachment E

The solicitation and the CBA indicate that the contractor is to furnish uniforms, to include among other things, a "*Protective Suit*." What is your definition of a protective suit – is it related to Fire – Hazmat, and/or Riot Gear?

**Answer #38**

The "protective suit" reference pertains to Hazardous Material (HAZMAT) suit(s).

**Question/Comment #39**

Reference: L

Prospective Offerors responding to the subject Request for Proposals will more than likely offer first right of refusal to certain incumbent personnel who meet company and DOE standards. The solicitation and associated Collective Bargaining Agreement [between Wackenhut and the United Professional Pro-Force of SRS (UPPSR) Local 125] make frequent references to "seniority" issues. Inasmuch as the current contractor has provided the security services described in the RFP to DOE for 25 years, it is reasonable to assume that most, if not all, employees have many years of service that impact vacation days, rate of pay, etc. Considering the number of employees at SRS and the compensation factors associated with seniority, can you please provide a list of all incumbent personnel by labor category and start date(s), without names?

**Answer #39**

The age and length of service of the incumbent contractor employees has been posted to the Documents Library of the Request for Proposals web site at <http://www.emcbc.doe.gov/srs>. This data is under Wackenhut Contract General Information and is in a document entitled "Demographic Data on the Current Workforce".
